The image shows a screenshot of the Facebook page for California Sickle Cell Resources. The browser address bar at the top displays the URL: [https://www.facebook.com/SickleCellResources/?ref=aymt\\_homepage\\_panel](https://www.facebook.com/SickleCellResources/?ref=aymt_homepage_panel). The page header includes navigation options: Page, Messages, Notifications (with a red indicator), Insights, Publishing Tools, Settings, and Help. The main content area features a profile picture of a red blood cell, the page name "California Sickle Cell Resources" with the handle "@SickleCellResources", and a navigation menu with options like Home, About, Services, Reviews, Photos, Likes, Videos, Events, Poll, Posts, and Manage Tabs. A "Promote" button is also visible. The main banner displays "CALIFORNIA Sickle Cell RESOURCES" with sub-sections for CENTERS, BLOOD AWARENESS, RESOURCES, and EVENTS. A "Create a Messenger Greeting" prompt is present, along with a "Watch Video" button. The page also shows a status update area with a "Write something..." prompt, a "3 Scheduled Posts" notification, and a community organization rating of 4.3 stars for Oakland, California.

# SCDC California Updates

## Proposed Clinical Partners

California: Children's Hospital Los Angeles · Kaiser Permanente Northern California · Kaiser Permanente Southern California · Loma Linda University · Martin Luther King Jr. Outpatient Center · UC – Davis · UC – Irvine · UC - San Francisco · UCSF Benioff Children's Hospital

Georgia: Augusta University · Children's Healthcare of Atlanta (Egleston, Hughes Spaulding, and Scottish Rite) · Grady Memorial Hospital

# CDC Updates: Health Communications

- Shareable social media buttons: 5 Facts You Should Know about SCD

- Webinars now available on CDC's SCDC Webpage [www.cdc.gov/ncbddd/hemoglobinopathies/scdc-webinars.html](http://www.cdc.gov/ncbddd/hemoglobinopathies/scdc-webinars.html)
- Minority blood donation tweets during Black History Month

<1% of blood donations are from African Americans. Help raise that # by giving blood to help people w/ #sicklecell & #thalassemia.

 CDC\_NCBDDD   
@CDC\_NCBDDD

These 2 aren't the only great match. When a blood donor & a patient are both African American, their blood types are more likely to match.
